Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

The primary reason for my choice of a TracFone was the inexpensiveness of the phone and the service, as well as the convenience. I am going to be purchasing one for my mother for Christmas; she is on a fixed income and I want her to have a cell phone for emergencies, but I do not want her to have the expense of regular cell phone charges - this is defeating the purpose of a low-cost phone service such as TracFone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Michelle Hartje
